

IHOR VOITIUK

PYTHON DEVELOPER

SUMMARY

I'm an experienced software developer with a good command of Python, experience with Django and FastAPI frameworks, OOP concepts, and SQL and noSQL data-bases. I have experience with successful cooperation with teams, and I try to learn quickly. Additionally, I have worked on my own web development projects and have experience with data analysis using Pandas and NumPy. I am passionate about innovation and am always looking to expand my knowledge and skills. If you are looking for a proactive and results-oriented software developer, I would like to be part of your team.
